‘Be a Difference maker...’

Unique, career opportunity to have a lead role in major projects and to engage and participate at a high level while delivering important and meaningful work.

Rainforth Grau Architects is one of the leading firms in Northern California specializing in K-12 and Junior College educational facilities. This position offers a strong candidate with 15-20 years’ experience the opportunity to be involved from early planning stages on several large, complex and challenging school facilities.

We are well-established in Sacramento and the Central Valley since 1984. We have a deep list of excellent long-term clients (some 20+ years) including many of the largest local districts. Our projects are challenging, important to our communities and professionally rewarding.

Rainforth Grau Architects provides competitive compensation with significant bonus incentives as well as excellent benefits. Our office is located in mid-town Sacramento, a highly walkable and desirable part of the city. The working environment is open and collaborative. Our staff is passionate about our clients and our work, energetic and committed to delivering great client service.
