

Make a Difference. Join us!

Innovative K-12 Educational Design

Rainforth Grau Architects is a diverse group of dedicated, passionate professionals who are committed to making a difference in our community by creating great learning environments. Our firm has a breadth of educational experience unmatched in Northern California. The current project list is extensive, including a new \$300M state-of-the-art comprehensive high school campus.

A Culture Where People Matter

Our culture is personally supportive and professionally challenging. Growth opportunities are paired with guidance and learning in an environment where everyone participates and contributes. We believe in working hard but also having fun and being active in various community organizations.

An Excellent Opportunity

RGA compensation and benefits are second-to-none, and we offer a flexible schedule in a casual, and engaging work environment. Our contemporary office has lots of amenities and is located in the heart of vibrant midtown Sacramento.

CAREER OPPORTUNITY

Architect

- 8+ years architectural work experience
- Software skills: familiarity with Revit, Bluebeam and Newforma
- Leadership skills: capable of working with and managing staff and consultants
- Communication and personal skills: able to interface with clients
- Capable of taking a project from pre-planning to post-occupancy evaluation
- Current California license in Architecture
- Interest in educational facilities planning and design

The ideal candidate will be able to successfully communicate with all levels of staff. The ability to mentor and help develop young professionals is fundamental to this position.
